Our Lighting is controlled by its own Linux based software. We continually release updates after the initial installation to keep up with new tech & customer requests. The lighting system is controlled easily with our free app from any smart device. Within the app, you can select programs, change brightness and speed, as well as create and save your own custom colorations to turn on and off throughout the year.

Discreet from the Street

Dazzling in the Dark

You can also set a timer to turn on and off at a specific time or to follow sunrise and sunset throughout the year. Just set it and forget it!

Our lighting is designed to be used every day of the year with accent lighting features to add beauty and security to any home. All accent lighting programs can be adjusted to the perfect hue to match your home. Adding light to any home or business also increases safety & deters crime.

This low voltage system uses less than 1 watt of energy per light. Rated at 22,000 hours or 15 years of nightly use and we also offer over 60 different colors of aluminum, copper, & steel track to blend into your home.
